

Software engineering - LAB MCQs Exam

English ▼

[← Dashboard \(https://www.parikshado.com/oldwebsite/dashboard\)](https://www.parikshado.com/oldwebsite/dashboard)**1 of 40**

The command which creates a copy of an existing git repository is..

- 1 ☐ git copy
- 2 ☒ git clone ✓
- 3 ☐ git alias
- 4 ☐ git move

Solution -

git clone

2 of 40

In Atlassian Jira, what is the primary purpose of an epic?

- 1 ☐ To track progress on a large project
- 2 ☒ To group related issues together ✓
- 3 ☐ To assign issues to team members
- 4 ☐ To set deadlines for issues

Solution -

To group related issues together

3 of 40

Which of the following is incorrect about agile development?

- 1 ☐ The customer should be closely involved throughout the development process. Their role is providing and prioritize new system requirements and to evaluate the iterations of the system.
- 2 ☐ The software is developed in increments with the customer specifying the requirements to be included in each increment.
- 3 ☐ The skills of the development team should be recognized and exploited.
- 4 ☒ The team should be left to develop their own ways of working without prescriptive processes. ✓
- ☐ The system requirements cannot change and design cannot accommodate the dynamic modifications.

Solution -

The system requirements cannot change and design cannot accommodate the dynamic modifications.

4 of 40

What does a burn-down chart show?

- 1 ☐ The decline energy level of the team
- 2 ☐ The number of hours worked after dark
- 3 ☐ The rate of reduction of budget for a project
- 4 ☐ The progress of the work and features completed ✓

Solution -

The progress of the work and features completed

5 of 40

What is the primary purpose of containerization?

- 1 ☐ To bundle an application and its dependencies into a single package ✓
- 2 ☐ To improve the security of an application
- 3 ☐ To improve the scalability of an application
- 4 ☐ To reduce the cost of running an application

Solution -

To bundle an application and its dependencies into a single package

6 of 40

What are the advantages of Jenkins?

- 1 ☐ Continuous Integration
- 2 ☐ To notify developers about build report
- 3 ☐ Both A & B ✓

4 ☐ None of the Above

Solution -

Both A & B

7 of 40

Agile development and deployment are difficult in case of..??

1 ☐ Monolithic ✓

2 ☐ Microservice

3 ☐ both of the above

4 ☐ OOPs

Solution -

Monolithic

8 of 40

Docker container is often described as an improvement over what other technology?

1 ☐ Cloud Computing

2 ☐ Devops

3 ☐ virtual machines ✓

4 ☐ microservice

Solution -

virtual machines

9 of 40

Which of the following is the key component of DevOps?

- 1 ☐ Continuous Delivery
- 2 ☐ Continuous Integration
- 3 ☐ Continuous Testing
- 4 ☐ All of the above ✓

Solution -

All of the above

10 of 40

In WebDriver
command is used to enter values to text boxes.

- 1 ☐ selenium.type()
- 2 ☐ type()
- 3 ☐ sendKeys("text") ✓
- 4 ☐ driver.type("text")

Solution -

sendKeys("text")

11 of 40

Define the main functionalities of the software and the constraints around them..

- 1 ☒ Software verification ✓
- 2 ☐ Software evolution
- 3 ☐ Software design
- 4 ☐ Software specification

Solution -

Software verification

12 of 40

Which diagram that helps to show Dynamic aspects related to a system?

- 1 ☒ sequence diagram ✓
- 2 ☐ interaction diagram
- 3 ☐ deployment diagram
- 4 ☐ use case

Solution -

sequence diagram

13 of 40

The repository model supported by Git is..

- 1 ☐ Client-server
- 2 ☒ Distributed ✓
- 3 ☐ Local

4 ☐ None of the above

Solution -

Distributed

14 of 40

What is the main difference between Agile and DevOps?

- 1 ☐ Agile is a methodology for managing the software development process, while DevOps is a methodology for managing the software delivery process
- 2 ☐ DevOps is a methodology for managing the software development process, while Agile is a methodology for managing the software delivery process
- 3 ☐ Agile and DevOps are the same process
- 4 ☐ Agile is focused on developers, while DevOps is focused on operations teams

Solution -

Agile is a methodology for managing the software development process, while DevOps is a methodology for managing the software delivery process

15 of 40

Which of the following is not part of the Test document?

- 1 ☐ Test Case
- 2 ☐ Requirements Traceability Matrix [RTM]
- 3 ☐ Test strategy
- 4 ☐ Project Initiation Note [PIN] ✓

Solution -

Project Initiation Note [PIN]

16 of 40

Code is checked in which type of testing?

- 1 ☐ Black box testing
- 2 ☐ Grey box testing
- 3 ☒ White box testing ✓
- 4 ☐ Red box testing

Solution -

White box testing

17 of 40

_____ is basically an issue and project tracking tool which allows us to track any project related work by following a proper workflow.

- 1 ☐ Jenkins
- 2 ☒ Jira ✓
- 3 ☐ Docker
- 4 ☐ Kubernetes

Solution -

Jira

18 of 40

What can be the duration range of a single Sprint?

- 1 ☐ One week
- 2 ☐ 6 weeks
- 3 ☐ 2-4 weeks ✓
- 4 ☐ 6-8 weeks

Solution -

2-4 weeks

19 of 40

_____ is the ability to store something temporarily to reduce the loading times, and 1/0 of a system.

- 1 ☐ Service registry
- 2 ☐ Cache ✓
- 3 ☐ Service Deployment
- 4 ☐ Chassis

Solution -

Cache

20 of 40

Protocol allows you to access the client applications on HTTP for third-party providers like GitHub, Facebook, etc.

- 1 ☐ OAuth ✓

2 ☐ HTTP

3 ☐ HTTPS

4 ☐ FTP

Solution -

OAuth

21 of 40

Which one of the following is a functional requirement?

1 ☐ Maintainability

2 ☐ Portability

3 ☐ Robustness

4 ☒ None of the mentioned ✓

Solution -

None of the mentioned

22 of 40

Identify among given the incorrect software layers.

1 ☐ Process

2 ☒ Manufacturing ✓

3 ☐ Tools

4 ☐ Method

Solution -

Manufacturing

23 of 40

To initialize git repository for the project that we intend to track using version control system, select the appropriate Git command

- 1 ☐ git add
- 2 ☐ git config
- 3 ☒ git init ✓
- 4 ☐ None of the above

Solution -

git init

24 of 40

What is the primary goal of DevOps?

- 1 ☐ To improve communication and collaboration between development and operations teams
- 2 ☐ To increase the speed and efficiency of the software development lifecycle
- 3 ☐ To automate the deployment and management of software systems
- 4 ☒ All of the above ✓

Solution -

All of the above

25 of 40

What is the main difference between Infrastructure as a Service (IaaS), Platform as a Service (PaaS), and Software as a Service (SaaS)?

- 1 ☐ IaaS provides infrastructure, PaaS provides a platform, and SaaS provides software ✓
- 2 ☐ IaaS provides software, PaaS provides infrastructure, and SaaS provides a platform
- 3 ☐ IaaS provides a platform, PaaS provides software, and SaaS provides infrastructure
- 4 ☐ IaaS, PaaS, and SaaS are all the same

Solution -

IaaS provides infrastructure, PaaS provides a platform, and SaaS provides software

26 of 40

In which type of relationship components cannot exist independent of their owner?

- 1 ☐ Aggregation
- 2 ☐ Generalization
- 3 ☒ Composition ✓
- 4 ☐ Delegation

Solution -

Composition

Which of the following phase acts as a bridge between the requirement analysis phase and the coding phase?

- 1 ☐ Feasibility Study Phase
- 2 ☐ Testing Phase
- 3 ☒ Design Phase ✓
- 4 ☐ Eliciting Requirement Phase

Solution -

Design Phase

28 of 40

What is a Dockerfile?

- 1 ☐ Docker image that gets built by running a Docker command
- 2 ☒ A text file that contains all the commands needed to build a given image ✓
- 3 ☐ A running instance of a Docker image
- 4 ☐ A website where you can download Docker images

Solution -

A text file that contains all the commands needed to build a given image

29 of 40

Complexity of developing, testing, and deploying the distributed system and handling partial failures account to the disadvantage of..??

- 2 ☐ Micro services ✓
- 3 ☐ both of the above
- 4 ☐ none of the above

Solution -

Micro services

30 of 40

Among given below select the programming language not supported by Selenium WebDriver?

- 1 ☐ Java
- 2 ☐ C#
- 3 ☐ Python
- 4 ☐ Fortran ✓

Solution -

Fortran

31 of 40

Select the most common set of instructions in Dockerfile?

- 1 ☐ FROM, LABEL, RUN, CMD ✓
- 2 ☐ SOURCE, LABEL, RUN, CMD
- 3 ☐ FROM, TAG, RUN, CMD
- 4 ☐ SOURCE, TAG, RUN, CMD

34 of 40

An iterative process of system development in which requirements are converted to a working system that's continually revised through close work between an analyst and user is called as

- 1 ☐ Waterfall Modeling
- 2 ☒ Iterative Modeling ✓
- 3 ☐ Spiral Modeling
- 4 ☐ None of these above

Solution -

Iterative Modeling

35 of 40

The command used to list all running Docker containers on a host is??

- 1 ☐ docker list
- 2 ☒ docker ps ✓
- 3 ☐ docker status
- 4 ☐ docker containers

Solution -

docker ps

36 of 40

What command do you run to view the commit history of your repository?

- 1 ☒ git log ✓
- 2 ☐ git history
- 3 ☐ git past
- 4 ☐ git commit -h

Solution -

git log

37 of 40

What is the function of a Kubernetes node?

- 1 ☐ To communicate with hosts on a network
- 2 ☒ To run pods according to master components ✓
- 3 ☐ To channel incoming data from multiple input ports to a specific port
- 4 ☐ None of the above

Solution -

To run pods according to master components

38 of 40

Amazon S3 is which type of storage service?

- 1 ☒ Object storage ✓
- 2 ☐ Block storage
- 3 ☐ Simple storage

4 ☐ Secure storage

Solution -

Object storage

39 of 40

SRS document is called black box specification of a system because

- 1 ☐ It does not contain the contradictory materials
- 2 ☐ It does not contain the user documentation
- 3 ☐ SRS document should specify only external behavior of the system ✓
- 4 ☐ None of the above

Solution -

SRS document should specify only external behavior of the system

40 of 40

The measure of the degree to which each program module relies on each one of the other modules is known as..

- 1 ☐ Coupling ✓
- 2 ☐ Modularity
- 3 ☐ Layering
- 4 ☐ Cohesion

Solution -

Coupling
