Which of the following is a valid scope of the beans in portlet context?   1 point

⭘ 1. None of these.

⭘ 2. global-session.

⭘ 3. session.

⭘ 4. request.

⭘ 5. prototype.

Which of the following classes can you use for executing the SQL queries in Spring?   1 point

⭘ 1. None of these.

⭘ 2. JdbcTemplate.

⭘ 3. DBTemplate

⭘ 4. JDBCHelper.

⭘ 5. DBHelper.

Which of the following is an IOC or Dependency injection?

1 point

○ 1. ORM Framework

○ 2. None of these.

○ 3. Design Pattern

○ 4. Framework

○ 5. Java Module

Which of the following Java Collection types can you inject in a Spring application?

1 point

○ Using list, set, map or props tag.

○ 2. Using lit, set, map or collection tag.

○ 3. Using list, set, props or collection tag.

○ 4. Using list, collection, map or props tag.

○ 5. None of these.

Which Of The Following Is Not A Valid Difference Between @Inject And @Autowired Annotations?

1 point

○ 1. @Autowired is a legacy annotation whereas @Inject is its latest version.

○ 2. @Inject annotation is part of Java EE 7's Context and Dependency Injection framework while @Autowired is the Spring Frameworks own implementation.

○ 3. None of these.

○ 4. There is no difference and both can be used interchangeably.

Annotations work as metadata for classes and Spring uses annotations as an alternative to XML for declarative configuration. Is it true or false?

1 point

○ 1. true

○ 2. false

Which of the following is true for Controllers in Spring?

1 point

○ 1. None of these.

○ 2. An abstract class.

○ 3. Concrete class.

○ 4. Final class.

○ 5. An interface.

Which of the following statements is true for @RequestMapping annotation?

1 point

○ 1. Used to map web requests onto specific handler methods.

○ 2. Can be applied to the controller methods.

○ 3. Can be applied to the controller classes.

○ 4. None of these.

○ 5. Used to map web requests onto specific handler classes.

Which of the following specify the points where weaving can 1 point
be applied?

○ 1. Compile Time , Classload Time , Runtime

○ 2. Compile Time , Classload Time , load time.

○ 3. Compile Time and Classload Time.

○ 4. Compile Time and Runtime.

○ 5. None of these.

@RequestMapping annotation is used to map a HTTP   1 point
request method (GET or POST) to a specific class or
method in the controller which will handle the respective
request?

○ 1. true

○ 2. false

Which of the following exception classes is related to all the 1 point
exceptions thrown in spring applications?

○ 1. SpringException.

○ 2. None of these.

○ 3. ArrayIndexOutofBound.

○ 4. NullPointerException.

○ 5. DataAccessException.

Which of the following is a type of bean injection?

1 point

○ setter,getter and constructor.

○ 2. constructor and setter.

○ 3. getter and setter.

○ 4. None of these.

○ 5. constructor and getter.

Which of the following layers the @Controller annotation is used in?

1 point

○ 1. Session layer.

○ 2. Service layer.

○ 3. None of these.

○ 4. Business layer.

○ 5. Presentation layer.

Which of the following correctly defines the Spring?

1 point

○ 1. A properietary framework.

○ 2. A licensed framework.

○ 3. An open source framework.

○ 4. A free framework.

○ 5. None of these.

All of the Spring's Controllers inherit from an AbstractControllor?

1 point

○ true

○ false

Which of the following is not a component of the Spring framework?

1 point

○ 1. None of these.

○ 2. Spring MVC

○ 3. AOP

○ 4. HTML/JSP

○ 5. O/R Integration

Which of the following statements is true?

1 point

○ 1. BeanFactory implements ApplicationContext

○ 2. BeanFactory extends ApplicationContext.

○ 3. None of these.

○ 4. ApplicationContext extends BeanFactory.

○ 5. ApplicationContext implements BeanFactory.

Which of the following correctly mentions the Autowire types?

1 point

○ byName , byMethod, constructor and autodetect.

○ 2. byName , byType, destructor and autodetect.

○ 3. byName , byType, constructor and autocorrect.

○ 4. byName , byType, constructor and autodetect.

○ 5. None of these.

What is the default nature of the Beans defined in spring framework

1 point

○ 1. Singleton

○ 2. Initialized

○ 3. Abstract

○ 4. None of these.

○ 5. Final

Which of the following beans isn't significant for the WebApplicationContext?

1 point

○ 1. Handler exception resolver.

○ 2. None of these.

○ 3. Multipart file.

○ 4. Locale resolver.

○ 5. Resolver.
